Judge S. D. Lewis, of Mt. Vernon, was in our town latter part of last week.—L. W. Catlin attended the funeral services at Richmond, Saturday.—J. T. Elliott was in Mt. Vernon, Wednesday, on business.—Mrs. W. M. Brown and daughter of Mt. Vernon, visited her mother, Mrs. Abel Pennington here, Sunday.—Charley Mullins, of Mullins Station, and Ed Woodall, of London, two first-class salesmen, were with our merchants Tuesday.—Jones Durham, of the White Oak Section, was in town Tuesday.—Mr. and Mrs. Roscoe Gregory, of Spurlington, have been visiting Mrs. Gregory's father, W. M. Hicks.—Mr. and Mrs. Will Hanks, of Hazel Patch, visited relatives here Sunday.—Mrs. George Cook is visiting her parents, Judge and Mrs. Jerome Fair, at Mt. Vernon.—J. W. Baker, the butcher shop man, was in Mt. Vernon, Tuesday.—John Cockrell, and Mrs. E. L. Cockrell, were in Mt. Vernon, Tuesday, on business.—John Pope will move his family to Somerset, Pulaski county, in the near future.—Well, we are having the coldest weather that we have had for years and it reminds us of what was told on Champ Mullins years ago. Mullins had gone to Mt. Vernon a few days previous to the day on which the conversation took place. It was a very cold time and some of his friends asked

him how cold it was on that date. He said he stepped in at Mitt Miller's and the Neometer stood three big inches below zero and we think we are having another such a spell.—E. L. Cockrell, who died last Thursday morning, after a few days' illness, leaves a wife and little boy, relatives, and a host of friends to mourn his loss. He was laid to rest in the cemetery at Richmond, Ky., Saturday. He was widely known and liked by all. He will be missed in our little town. He has paid the debt that we all owe. Peace to his ashes. Glory to his immortal soul.—John Fields, who represents Baughman & Co., of Stanford, was with our merchants, Saturday.—J. B. Singleton, better known as "Kid", is clerking for C. C. Cromer.—N. H. Oliver and David Rambo were in Louisville, Friday.—We believe that the present county officials intend to redeem the promises made in their platform, for they have already proved it, and the following bids are to prove it further: About two weeks ago the office of Judge Ballard was crowded and Judge noticed a lady in the midst and asked her if there was something that he could do for her. She only laughed but some one spoke up and said she wanted to get married. Judge asked where the other party was, and a boy twenty years old arose. The lady was forty-two years old. The Judge asked them if they wished to get married and

they answered they did. He asked if they had the license and the boy handed them to the Judge. Then he married them. After the ceremony the boy asked the Judge his price. He answered \$1.50, the boy only having so cents asked a friend if he had a dollar to loan him, and his friend told him he did not. Then he turned to the Judge and said he never heard of anyone charging over 50 cents in his life. So, the Judge told him that he would not charge him anything, and the newly married couple went their way rejoicing. So, Judge Ballard has put marrying in this county on the free list. Now, if we can only find a partner, Hicks and myself can get a bargain.—R. J. Lemonds was in Lebanon, Monday.—Mrs. Sams has returned from Pittsburgh, Ky., and reports her mother, Mrs. Pittman, much improved.—J. W. Baker, who is running a butcher shop here, was in Mt. Vernon, Monday.—Earl Rice, who is attending college in Cincinnati, Ohio, was with some folks Sunday.—C. J. Rice attended the Masonic banquet at Lebanon Junction, Monday evening.—We believe that the ground hog has something to do with the weather, or the weather has something to do with the ground hog, and how we have not had but one pretty day since he went back.—S. C. Franklin, the L. & N. watch inspector, was here Monday looking after the railroad

Don't back down now. Come again and don't get too hot for us, we will shut our eyes and take the medicine.—Or it may be that he is studying the combination of that slot machine, but for the time being we will wait, or perhaps he will this week pose as a poet. Well, if this is his game, we will say now that when we answer him he will think that Milton, the poet, has arisen and chasing him over deep ravines, heaving forth lava, fire and brimstone, and he will have to call on the great eagle of Abraham's rights to carry him to some distant peak for safety.—S. E. Helms, who has been on the sick list, is some some better.—Mrs. Mingo, of Crab Orchard, is visiting Mrs. J. H. Browning.—Granville Leece, of Crab Orchard, and W. H. KENTUCKY PRESS ASSOCIATION

ONE of the most difficult tasks in a newspaper office is getting the facts relative to births, deaths and marriages, in the community. Many people take it for granted that when a person dies, the editor is familiar with every detail of the life of the deceased and his activities, when as a fact he knows absolutely nothing about him, but he has to get his information from other sources, some as other persons would have to do. It is the same with regard to marriages, or other more or less important happenings in the community. To almost every case the editor has to dig up the particulars or to satisfy himself and the readers of his paper with a meager and inaccurate account. The average editor of a country paper has something like a million and a half things to do and think about in a week and the patrons can hardly overestimate how much he appreciates any effort they make in furnishing him the facts for news items.

AN honest boost does the best for as much good as the bested. If you're not in the habit of taking of this sort of joy, take a deep draft today. Try to think of something good to say about somebody, and then say it as if you meant it. When you meet up with a knocker—especially a home-town—knocker—join him with a boost. Keep in mind these words of Abraham Lincoln:

"I like to see a man proud of the place in which he lives. I like to see a man live in it so that his place will be proud of him. Be honest but hate no one; overturn a man's wrongdoing, but do not overturn him unless it must be done in overturning the wrong. Stand with anybody that stands right. Stand with him while he is right, and part with him when he goes wrong."

THE remains of Rev. Geo. O. Barnes, the noted Evangelist, and his wife were brought from Saibel Island, Fla., and buried in Bellevue cemetery, Danville, Feb. 15th.

THINGS THAT MAKE A TOWN NO. 1.

(By REV. G. S. WATSON)

ITS CHURCHES

Why is it that some towns grow and prosper, while others, apparently not less fortunately situated lag behind in growth and in the march of progress? We believe that the growth and prosperity of towns, like the success and happiness of individuals, are governed by certain fixed principles that are universal in their application.

We propose, in a number of articles to deal with some of the most important factors in the life and upbuilding of towns. Today we shall consider but one of them. Of the things that really contribute to the permanent success of a town, the moral character of its citizens takes a place second to none. Therefore when discussing the influences that make a town we do not hesitate, first of all, to say: Its Churches.

Religion has ever been the saving force in society. No one can point to a single country or civilization that has long prospered without the moral force and spiritual help of religion. Even the so-called pagan religions, though mixed with error, have exerted untold influence over individuals of a nation or race, in holding them together and giving them a common bond of fellowship. But it was not until the coming of Christ that the world received its highest civilizing force and greatest moral uplift. Indeed no less a world traveler than John R.

Mott recently said to a great gathering of students: "When I came to the countries where Christ has not been proclaimed, I find the desert places."

Perhaps you admit these general statements to be true, but do not feel that they have any special bearing on the question of our town's outstripping another in growth in the heart of this Christian America where there is a church in every village or hamlet. Let us then look at the question from another standpoint:

WHAT WOULD BECOME OF AMERICA IF THE CHRISTIAN CHURCHES WERE OBOLISHED? There would be immediately a deterioration in morals. Some four years ago one of the leading New York papers made an exhaustive examination into the political morals of a certain New England State that had been charged with being politically rotten. A careful description of each of the most corrupt towns in that State was given, and this was the startling fact brought out: "the worst towns, where bribery was most persistent, where illegal liquor selling was most rampant, where immorality was most rampant, were those towns in which there was no resident minister, and where no Christian service was regularly held." If this in New England, would Kentucky fare better without the churches?

Let us bring the question home: IF THE CHURCHES AND ALL CHURCH LIFE WERE ABOLISHED IN MT. VERNON WHAT WOULD HAPPEN? (1) We would have no Sunday Schools, to which to send our boys and girls, and they would then get their standards of life and morality, more or less, from the streets and other suitable places. (2) There would, at once, be a general decline in the moral tone of the town. (3) Our town property would depreciate in value. (4) There would be a marked slump in business. (5) There would be an immediate check in the growth of the town, because the better class of citizens would go longer be attracted to a town that had lost its churches.

We believe that our readers will agree with us that the churches of a town are a large factor in the normal and successful development of that town. And we do hesitate to affirm that the churches of Mt. Vernon in spite of all that might be said of their limitations or imperfections, are a very positive force for good in the community. Now go with us one step farther. If nobody went to church in Mt. Vernon, there would be no church, and then, — Well, it only remains for us to suggest a few reasons for supporting the churches of Mt. Vernon. Why attend regularly one of the churches of Mt. Vernon? Or of the community in which you live? (1) Because the church is God's greatest institution to the world. It is directly or indirectly behind every great moral and social movement today.

(2) Because the soul needs culture. You can't afford to let the children grow up without the refining influence of the church. Oliver Wendell Holmes once said: "There is a little plant, called Reverence, in the corner of my soul's garden, which I love to have watered about once a week." (3) Because the church is the greatest influence in the world for the promotion of human fellowship, drawing people together. And isn't this just what we need more of, in our business, our clubs, our lodges, our society.

(4) Because the church appeals to the best that is in a man, and there is some good in all men. Aristotle defined man as a political animal; Seneca defined him as a social animal; Burke called him a religious animal. He is all three. No man is a good man who isn't religious as well as political and social.

Namorous cities throughout the country, at the present time, are having a "go to church" Sunday on which Sunday a concerted effort is made to get the great majority of the people of the entire city, out to the services of one of the churches. Why not have a "go to church" day for Mt. Vernon? And turn out en masse to church? Wouldn't such a movement reflect credit on the entire community? To see all the churches of Mt. Vernon filled to overflowing on a single day and at the same time, might startle the preachers a little, but it would be a happy surprise, as was that of

the woman whose husband was giving her five years' old boy his first lesson in addition. Said the father: "Tommy, if I give you another dollar, and then gave her five dollars more, what would she have?" Tommy's mother could not wait for his answer, she quickly answered for him, "Hysterics." We hope the woman safely got over the shock. We regret the preachers would let's try it and see.

THEY PREFER OURS

No Wonder, Simple as A B C. Ours Cost Less Ours Wear Better They Have More Style

It's about as difficult to describe these new clothes as to write about the prettiest girl at a Leap Year Party. You've got to see her with your own eyes. Maybe you'll like her—if you don't there are others. So, if one suit doesn't please you, we've another. It's a question of taste. Prices? That lies with you. The better the clothes you buy, the longer they last and the better they look while you're wearing them. But everyone prefers ours. They are best.

ROBBED OF MONEY:—Lots of people are robbing themselves every day by buying on credit, when they could pay the cash and get their goods at a living price. Take your cash to J. Fish & Son and be convinced that your money goes further at a cash store.

McCoy-Henry:—Mr. Herbert Henry of Winchester and Miss Lula McCoy, were married last Saturday evening at the home of Miss Pattie Green, Versailles, Ky. Mr. and Mrs. Henry will reside at Winchester. This paper joins with the many friends of Mrs. Henry in Mt. Vernon in hearty congratulations and best wishes.

The Postoffice at Langford, this county, will be discontinued after the 28th of this month.

J. M. Craig sold to A. J. Norton Jr., 35 acres of good land in the West side for \$625.

D. M. Cress recently bought of W. T. DeFord, 1 pair of mules at \$387.50; Jasper McGraw, 30 hogs at 6cts, and from Walter Owens 24 sheep at \$3 per head.

The store building and stock of goods of J. C. Miracle at Conway was destroyed by fire last Thursday night. There was \$2350, insurance on building and stock.

No trace as yet has been found of P. E. Owens, the missing carpenter, and his wife and four children will leave to day for Middleboro where her relatives live.

T. I. Nicely was named Tuesday as administrator of the estate of E. L. Cockrell deceased. It is estimated that Mr. Cockrell's estate will be between \$30,000 and \$40,000.

In this issue appears the first of a series of articles by Rev. Geo. W. Ison on: "Things that make a town." We trust every person in Rockcastle county may read these articles.

E. W. HACKNEY has been named Postmaster at London, which appointment meets with hearty approval of the patrons of that office. The efforts of a worthy young democrat justly rewarded.

Grant Thompson, of the Wabed section, and one of the county's most upright, honorable citizens, died Monday morning of pneumonia. He leaves a wife and seven children. His remains were laid to rest in Providence buying ground Tuesday.

DIRECTORS MEETING:—A meeting of the Board of Directors of the Mt. Vernon Fair Association called for at 10 o'clock p. m. Saturday, Feb. 28, (tomorrow) at the office of Atty. E. R. Gentry, over the Peoples Bank in Mt. Vernon. Important business.

The County Board of Education will meet next Thursday, March 5, in the Superintendent's office at 9 o'clock a. m. and any one having business with the Board is requested to appear at that time. This is the regular time for making charges in school districts.

Measles are certainly going the rounds in Mt. Vernon. We would not attempt to name the number of families who have them now or have had the disease. With one or two they have been pretty tough, but with the large majority, has been in a very light form.

Mrs. P. E. Owens whose husband disappeared several weeks ago and who with her four children have been upon the mercy of the world, has asked us to express to the people of Mt. Vernon and especially Mrs. T. J. Nicely her thanks for acts of kindness which has enabled her to keep her children together.

CLUB NOTICE

The social meeting of the Woman's Club, planned for Feb. 20th had to be postponed on account of sickness. Feb. 27th was chosen as a later date, but conditions are such as to make it impossible for all the members to be present on that date. This meeting will take place at the earliest convenient date. Notice will appear later.

NOTICE:—Owing to the fact, that Mr. Henry Spivey, to whom I had bargained to sell my farm, has decided not to buy and has refused to comply with the terms of contract, I am forced to call off my sale of personal property as advertised for March 6th, 1914. I regret to have to do this, but unless the farm is sold, I certainly do not want to sell my personal effects. I trust the people will understand and appreciate my attitude and in no way reflect upon me, as I was sincere in all that I have done and am calling off this sale only as a matter of necessity.

Yours very truly,
B. A. HAYES.

Boone Way vs. The Pinnacle News

By JAMES MARET.

The writer (Secretary of the Mt. Vernon Commercial Club) notices in the Pinnacle News a double column editorial in its issue of Feb. 5th has some peculiar comments on the subject of Boone Way. It is to be regretted that the author of the editorial didn't study the matter more closely before saying anything at all on the question. Had he done so we are satisfied his editorial would have contained many less errors than it does.

It was not necessary either that such facetiousness be used in some parts, while in other lines attempting in a faint way to praise the efforts of the Mt. Vernon people to vote a sentiment in favor of building the proposed highway from Cumberland Gap to Crab Orchard, over the old "Wilderness Road and Boone's Trail," there to connect with the Kentucky system of turnpikes thereby, connecting the north, northwest and southeast thru the mountains. The Mt. Vernon Commercial Club nor the people of that pushing little town claim to be the "originators" of the idea of a National Highway to be built over said route. Pineville deserves this honor. But they did "revive" the movement in January, 1913 and immediately went to work to ascertain the sentiment of the country in general on the subject. Congressmen of Kentucky were first conferred with, then followed those of adjoining states nearly all of whom advised that they favored the movement. The Governors of the same also fell in line and asked their state members in Congress to support a bill, when put up to them, for the construction of such a highway, Commercial Clubs of Louisville, Cincinnati, Knoxville, Asheville, N. C., Richmond, Bristol, Va. Tenn., Danville, Stanford, London and Barbourville and other cities and towns, and took the matter up with their Congressmen.

The Daughters of the American Revolution of North Carolina, Virginia, Tennessee and Kentucky have a movement on foot for marking Boone's Trail from Hillsboro, N. C. to Boonesboro, Ky., by erection at points every ten miles along the line stone markers bearing memorial tablets advising that the great frontiersman "passed off this way in 1775." The Daughters of the American Revolution endorse our movement and are good Boone Way boosters. The News says "among one of its 'sane' remarks that Rockcastle is rich in stone and could furnish enough of that article to build a road across the United States, but falls far short of the mark. There is enough here to belt the globe with a twenty-foot

"THE WILL WAS PROBATED."

On last Monday at 10 o'clock p. m., the will of the late John Smith was probated and read as follows: "I, John Smith, being of sound mind and member, realizing the uncertainty of life, do hereby and hereon deem it a duty I owe to my beloved wife, Mary, to will and bequeath to her all that I have, both real and personal. Therefore, it is my pleasure that she have all that I have to do with it, as she deems best, and I hereby appoint her as my administratrix without bond. This given out by my own hand this the 14th day of April, 1906.

"JOHN SMITH."

N. B. — I wish to state that John Smith's estate was a \$2,000 policy in the Kentucky bred Insurance Company, the Great Commonwealth, represented by our local druggist, Chas. C. Davis, who will be glad to show you their policies of protection.

macadamize road more than once thru and have lots to spare. There has been crushed and shipped from Rockcastle within the last few years by one firm more than 50,000 car loads of stone, which is put in one train would be 400 mil. in length, requiring 2000 locomotives to move it, containing two million square yards of stone and the shippers, in the excavations, for this stone have only made comparatively small dents in the sides of three hills. The News calling us dreamers cuts no ice. Public sentiment rules in the long run and that sentiment has now reached a point which is causing Congress to sit up and take notice of the demand the people are making for the construction of highways by the Government.

Boone Way will be built but not by the aid of men with views held like that of the writer of the Pinnacle News editorial. There are many reasons why the Government should construct this highway. There isn't any doubt in world that it is going into highway building at no distant date and Boone Way ought to be one of the first to receive attention. Kentucky pays into the National Government more than \$10,000,000 in Internal Revenue every year. It seems that there should be a willingness on the part of Congress if the thing is properly presented to it, to spend at least "the one fortieth of one year's revenue to building this suggested road thru the mountains which would prove the greatest traveled highway in the country. Nothing is ever accomplished by doing nothing. The words 'It can't be done' The Pinnacle News man should recall the slogan adopted by two Kansans Commercial Club. "The blamed

WILLIE HAD A BIG BEN WATCH

(Dedicated to Will Owens)

Willie had a Big Ben watch. Rocks it could nifty throw. And every where Willie went, The watch was sure to go. It followed him to call one night, This was against Will's desire; So at the gate the watch was left, In its spiteful fit.

Till ten o'clock it waited there, Then stoned the house in fear; And continued throwing rocks, Till Willie did appear.

Down river Big Ben he rushed, And cast into its swirling; No more will it annoy Willie, When calling on his girl.

OHIO TAX LAW UPHELD

Public Utilities Corporations Must
Loosen—High Court Indorses
Legislators' Work.

Western Newspaper Union News Service.
Washington.—Without a dissenting
voice the supreme court of the United
States upheld the Ohio law taxing pub-
lic utilities corporations, which was
passed by the state legislature in May,
1911.

Associate Justice William R. Day
took no part in the decision because
his son, United States District Judge
William M. Day, at Cleveland, sat
with Circuit Judge Warrington and
District Judge Sater in the prelimi-
nary hearing of the case.

The validity of the law was ques-
tioned by the Ohio River & Western
Railway Co. and the Marietta, Colum-
bus & Cleveland Railroad Co., and
suit was filed against the tax commis-
sion of Ohio, consisting of Robt. M.
Ditty, Frank E. Munn and Christian
Pabst and State Treasurer Creamer,
State Auditor Fullington and Atty.
Gen. Hogan, in their respective offi-
cial capacities, the purpose of the ac-
tion being to prevent them from en-
forcing the law in collecting the taxes
levied thereunder.
